IT EXPO: SIP Print Announces ABP Agreement

02/04/2009

SIP Print said it is continuing to expand its distribution channel in the United States, Canada, Mexico, Central and South America through a new distribution agreement with [ABP Technology](#), an IP technology distributor headquartered in Texas.

SIP Print's call recording appliances are immediately available through ABP's network of VARs and systems integrators.

SIP Print offers an on-premise appliance that supplies SIP voice recording to SMBs and larger organizations with a need to record up to 200 seats per location for purposes of training, quality assurance, and customer satisfaction monitoring.

"More organizations around the world continue to embrace the many benefits of IP-based phone systems and the need to record some or all of those calls has increased exponentially," said Robert Messer, president and CEO of ABP Technology. "Our sales and support teams are excited to play a key role introducing SIP Print's innovative products to the marketplace through our network of channel partners."
